41780, Körfez / KOCAELİ

PROFILE

With over ten years of experience specializing in web design and backend programming, I have effectively utilized technologies such as HTML, CSS, PHP, MySQL, and Illustrator to develop various projects. Additionally, I have taken introductory training in GoLang and continuously strive to enhance my skills in new programming languages.

I possess extensive experience with content management systems like WordPress and OpenCart, having successfully completed numerous web design projects on these platforms. Currently, I am working in the IT department of a public hospital, where I have gained valuable experience in managing corporate projects and solving complex problems.

My work is characterized by a commitment to quality, attention to detail, and a focus on customer satisfaction. My passion for technology and a continuous desire to learn enable me to deliver projects on time and exceed expectations.

I am eager to apply my experience and skills to contribute to future projects and be a part of your company's success.
